Petition to Urge the City of Longmont to Resurface the Courts at Carr and Pratt Parks

We the undersigned have serious concerns about the condition of the tennis courts at Carr Park and Pratt Park. The deteriorated surfaces are slippery, even in dry conditions. This condition increases the city's liability for court use. Further delays in addressing the resurfacing of these courts will only cost the city more. We know that budgets are tight in this economy, but money spent wisely now will have future savings for our community. We therefore strongly urge the City of Longmont to address this problem as soon as possible.
